Shipper acknowledges that it is required to provide Kuehne + Nagel verified gross mass/weight ("VGM") data for each container that Kuehne + Nagel transports or arranges on its behalf. Such VGM shall be obtained from a calibrated, certified scale, and shall include the container's tare weight, and all cargo items, packing materials, pallets, securing materials, dunnage etc. that will be tendered to the underlying shipping line. Shipper further represents that Kuehne + Nagel is entitled to rely on the accuracy of such VGM data and counter-sign and/or endorse it as agent or otherwise on behalf of the Shipper in the course of providing the VGM to the shipping line. If the VGM is not available at required cut-off time, Shipper acknowledges that the container/shipment(s) may not be accepted into the terminal and/or loaded on board the vessel which can result in substantial charges on account of the Shipper.

The undersigned further acknowledges its duly authorization by the shipper to transmit the VGM and the Shipper agrees that it shall indemnify and hold Kuehne + Nagel and its affiliates harmless from any and all claims, losses, penalties or other costs resulting from any incorrect, unclear, inaccurate, incomplete or otherwise insufficient statements of the VGM provided by the Shipper, its agent or contractor, or any related Shipper party on which Kuehne + Nagel relies.
